INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1953 edition of the Kinston City Directory, which also includes the rural routes emanating from the Kinston Post Office

Confidence in the growth of Kinston's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Kinston to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Kinston Directory will fulfill its mission as a source of authentic information pertaining to the city.

Six Major Departments

The six major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 21 to 410, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Kinston, and the name, official personnel, nature and address of each firm and corporation in the city.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 148, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Kinston. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Kinston, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 561 to 645, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages

CARLSON FURNITURE HOME
AMBULANCE Phone 2128

528 Queen St.

649 to 719. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

THE KINSTON RURAL ROUTES DIRECTORY extends from page 721 to page 739, on white paper.

THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, begins opposite page 740.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Kinston.

The Kinston Directory Library

Through the courtesy of the publishers of the Kinston City Directory, a Directory Library is maintained in the offices of the Kinston Chamber of Commerce, for free reference by the general public. This is one of more than 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

The beginning of what is now a thriving eastern Carolina city was a wilderness settlement and trading post on the banks of the Neuse River, 70 miles from the Atlantic Ocean, in Colonial 1740. Since that time, Kinston has been multiplied many times over, and has become a well-balanced center of varied commerce. The forest trails and water travel of the Colonial days have turned into paved highways and railway roadbeds, and the "trading post" now serves approximately 150,000 "settlers" in its territory.

The population of the river settlement has grown from a hardy handful early in the 19th century to an estimated 25,000 at present. Today Kinston is the seat of government of Lenoir County, embracing 45,953 persons. The growth of Kinston always has been closely tied to agriculture, but now with the continued increase of population in the trade area, a gradually-developing industrial character is to be observed. The city, likewise, has become a permanent retail trading center for eastern North Carolina, and is the largest wholesale distribution point east of Raleigh.

From the basic agricultural work of the early settlers, engaged in for survival, the production—first, of cotton, and

A "Grand Champion" at One of Kinston's Annual Fat Stock Shows and Sales

Frosty Morn Meats, Inc., North Carolina's Only Federally-Inspected Meat-Packing Plant

later, tobacco—came a broader economic outlook and more prosperity. Today "King Cotton" has lost its autocracy, and the "Golden-Leaf Tobacco" has become the economic ruler.

The rule of the "Golden-Leaf" has been a fruitful one, for \$41,037,089 poured into the farmers' purses as a result of sales on the Kinston market in 1952. Kinston's 14 tobacco warehouses provide ample sales space and facilities to accommodate more than 100,000,000 pounds of tobacco. Such a return from a single phase of the agricultural life of Kinston's "settlement" area, when boosted by the progress and return from the variety of other phases, has been reflected sharply in its growth.

Following the establishment of a thriving market, tobacco-processing factories were built, and have taken their place among numerous other industrial establishments to make the river-bank trading post a center of economic wealth. Within the boundaries of Kinston, with its many miles of broad, paved streets, are located producers of clothing and other textiles, building materials, and various types of consumer goods.

A network of improved highways lead out of Kinston into the Coastal Plain like the spokes of a wheel, and two railroads provide carrier facilities of heavy goods and shipments. Electric power, with newly added equipment and facilities, is available to the city's residential and industrial needs and is manufactured in sufficient quantity to supply an excess of more than 40% above the peak demand at present. There are 56 manufacturing and processing firms located in the city, with nine large wholesale distributors, and over 400 retail stores and service institutions, all

banded together to serve the requirements of the ever-growing population.

The economic soundness of Kinston can be attested by the three thriving banks which serve its citizens and its business life. Surveys have shown a steadily-mounting check-clearance volume in the banks for a number of years. The solvency of the City government is shown by the ready sale, at all times, of the municipal bonds for street and utility improvements and for the construction of permanent municipal improvements.

The physical well-being of the city and its citizens is no less sound than any other part of its life. With the location 70 miles from the coast on North Carolina's temperate plains, the weather—wet or dry, hot or cold—is of the most healthful. Here, it is not a matter of how many days the sun shines each year, but whether it shines in proper proportion to the rainfall. The abundance and value of farm crops grown in the immediate vicinity is proof of ideal weather and climate.

Two modern hospitals, staffed by some of the country's most eminent physicians, surgeons and specialists, are here to serve the citizens of the area. More than 30 doctors and dentists reside and practice in the city, thereby making Kinston the medical center of eastern North Carolina. A well-organized public health program is carried on at all times to make for cleanliness and the eradication and treatment of diseases. The Caswell Training School, the State's largest institution for the care of mental deficient, is located near the city.

Kinston has the unique distinction of a perpetual artesian water supply coming from deep wells that provide water of the purest content east of the Rocky Mountains and is entirely untreated. The supply is unlimited for industrial and commercial use, as well as for home consumption.

Kinston citizens are a friendly people, ever anxious to share their goods and services with the stranger within the city's gates. Kinston extends a cordial invitation to home-seekers, industrialists, retail traders, and men and women of all vocations to come here for a day, a year, or a century.

The logo for Denmark's Florist is a circular emblem. Inside the circle, there is a stylized figure of a person, possibly a gardener or a person in motion, surrounded by foliage. The words "DENMARK'S FLORIST" are written in a bold, serif font along the top inner edge of the circle. Along the bottom inner edge, the word "INTERSPHERE" is written in a smaller, sans-serif font.

WHY A *Buyers'* *Guide?*

*It is customary to include a Buyers' Guide in the City Directory because:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED.

CLASSIFIED BUYERS' GUIDE OF THE CITY OF KINSTON

WHY A *Buyers' Guide?*

* It is customary to include a Buyers' Guide in the City Directory because:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information... **EXTENDED**

CAUTION . . .

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

Names Appearing in Black Letters

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

Out of Sight - Out of Mind
★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

HILL'S KINSTON

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1953

Copyright, 1953, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order, followed by the named streets arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or homeowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ® following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The ▲ preceding names denotes houses and places of business having telephones.

Figures in parenthesis denote old numbers.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.
